

Compliance 360 Announces Release of Version 7.1

Latest version introduces new SOX and ERM capabilities and enhancements

ATLANTA (October 31, 2006) – Compliance 360, Inc announced the release of Compliance 360 version 7.1. This new version provides users with increased capabilities and functionality for Sarbanes Oxley (SOX) and Enterprise Risk Management (ERM) as well as additional graphical reporting options and overall feature enhancements. These enhancements enable Compliance 360 customers to improve compliance status visibility and increase their productivity enterprise-wide.

“At Compliance 360, we continue to enhance our product to further assist our clients in creating a comprehensive Governance, Risk and Compliance (GRC) management program.” says Debbie Luyk, Director of Product Management. “With the SOX and ERM improvements included in version 7.1, our clients gain a greater ability to measure the results of their risk assessments, interpret those results and produce comprehensive reports, such as enterprise dashboards, that provide executive management with enhanced visibility and strategic insight into the business.”

Some of the 7.1 enhancements include:

- **SOX and ERM Reporting Advancements** - offers a full set of reports allowing users to navigate through real status and progress of risks, controls, issues and exceptions. This new version allows users to choose from a selection of dashboard graphical options such as pie charts, heat maps, and a detailed relationship tree view of Enterprise Risk Management and Sarbanes-Oxley models.
- **Regulatory Intelligence Classification** – increases ability to manage and report on regulatory content through the use of a customizable classification system.
- **Enhanced Executive Dashboard Functionality** - enables customers to more easily and efficiently track, monitor and report on compliance activities. This latest release provides improved status tracking capabilities and greatly facilitates enterprise-wide communication and improves visibility of compliance status.

“Through a unified architecture, our product suite addresses the requirements across all business units including legal, compliance, risk, operations, and IT.” says Steve McGraw, Chief Executive Officer and President. “These continuous product improvements demonstrate the commitment to our mission of delivering the most comprehensive governance, risk and compliance management platform in the market.”

About Compliance 360
