## LifeLink Foundation Selects Compliance 360

*Leading Health Care Organization chooses Compliance 360 to optimize compliance management across its divisions including those regulated by the Food and Drug Administration (FDA) and Centers for Medicare and Medicaid Services (CMS).*

**Atlanta, GA. – August 16, 2006** –LifeLink Foundation, a leading health care organization responsible for the recovery and transplantation of organs and tissue, selected Compliance 360 as its policy and procedure compliance solution for all Foundation divisions including those regulated by the federal government. With this solution, LifeLink will organize and centralize documentation storage, automate workflow between divisions located in West Central Florida, Georgia and Puerto Rico, and link all policies and procedures to the pertinent regulations and standards governing organ and tissue recovery. This strategic move assists in the organization's initiative to reduce manual processes, improve agility, and provide greater visibility to overall compliance status.

"We chose Compliance 360 because their solution fit our needs and has the ability to integrate with our learning management system," stated Art Heinrichs, Vice President, Corporate Compliance Officer, LifeLink Foundation, Inc. "Our mission of saving lives through organ and tissue donation and transplantation involves many policies, procedures, state and federal guidelines. Since we have multiple locations we believe the hosted, on-demand solution fits perfectly into our day to day operations. Compliance 360 allows all of our divisions - regardless of location - the ability to access, collaborate, and manage documents while demonstrating compliance Foundation-wide."

"LifeLink selected our policy and procedure management system as an important component of their comprehensive governance, risk, and compliance (GRC) management. An effective GRC program will help protect their brand, reduce risks, improve efficiencies, and enhance global visibility of compliance activities," said Steve McGraw, President and Chief Executive Officer, Compliance 360, Inc. "We are excited to have LifeLink join our customer community and we look forward to assisting them in achieving their overall strategy and goals."

"The Compliance 360 solution is seamlessly integrated with our web learning platform, an integral part of LifeLink's intranet web based Content Management System (CMS) redesign project. Several solutions were evaluated including the internally-developed Microsoft SharePoint and CoraWorks web components, stated John Rhon, Vice president of Information Systems, LifeLink Foundation, Inc. "The Compliance 360 Policy and Procedure solution had more advanced automated workflow functionality, stronger collaboration features and enhanced single sourcing of documentation to manage our web based document and content management cycle."

### About LifeLink

LifeLink Foundation is a not-for-profit community service organization dedicated to the recovery and transplantation of an increasing number of high quality organs and tissues for transplant therapy. The Foundation attempts to work sensitively, diligently, and compassionately with donor families to facilitate the donation of desperately needed organs and tissues for waiting patients. The Foundation is committed to working closely with and in support of, the [United Network for Organ Sharing's](#) (UNOS), goals and objectives. The Foundation supports research efforts that will enhance the supply of available organs and tissues for transplant patients and improve the clinical outcome of patients post transplantation. The LifeLink [HealthCare Institute](#) implements critical pathways for transplantation care and end-stage disease treatment, allowing for superior patient outcomes while carefully monitoring costs. LifeLink has divisions in Florida, Georgia, and Puerto Rico. To learn more about LifeLink visit [www.lifelinkfound.org](http://www.lifelinkfound.org).

### **About Compliance 360**

Compliance 360 helps companies in regulated industries address the most important facets of a comprehensive governance, risk and compliance management program—reducing risks, reducing costs, improving efficiencies and protecting a company’s brand.
